Summary

Full-Stack Developer with 3 years of experience building scalable web platforms, enterprise applications, and AI-enabled systems. Skilled in Angular, React, Spring Boot, Node.js, and FastAPI with experience across frontend architecture, backend services, databases, and cloud deployments. Delivered performance optimizations, workflow automation, and AI-driven tooling across enterprise and freelance projects.

Technical Skills

Languages: TypeScript, JavaScript, Python, Java, SQL (PL/SQL), C/C++)
Frontend: Angular, React, RxJS, NgRx, Redux, Context API, Tailwind CSS, Bootstrap, Angular Material, Material UI
Backend: Node.js, Spring Boot, FastAPI, Django, REST APIs, GraphQL, MVC
Databases: PostgreSQL, MySQL, MongoDB, Redis
Cloud, DevOps & Engineering: Git, Docker, AWS, Azure, Linux, CI/CD, Microservices, System Design
AI/ML: LangChain, RAG, NLP, Prompt Engineering, Agentic AI, Custom AI Agents, MCP

Experience

Tata Consultancy Services

Jan 2025 – Present

Full-Stack and Gen AI Developer

- Architected 6 enterprise features across Angular, Spring Boot, and backend services, reducing manual effort by 30%
- Optimized PostgreSQL queries and Redis caching strategies, enhanced application responsiveness and throughput
- Built Python AI automation pipelines for code analysis batches, improving maintainability scores by 20%
- Remediated 100+ vulnerabilities through structured refactoring, reducing SonarQube-reported issues by 90%
- Mentored 2 junior developers across sprint cycles, increasing delivery consistency and engineering standards

Apex Marketing

Jun 2023 – Jan 2025

Full-Stack and Gen AI Developer

- Developed scalable full-stack applications using React.js, Node.js, Express, and MongoDB, serving 5K+ monthly users
- Implemented RESTful APIs with authentication (JWT/OAuth), rate limiting, and role-based access control (RBAC)
- Engineered backend services with proper error handling, logging, and input validation, improving system reliability
- Integrated LLM-based AI services into production systems with efficient prompt engineering and response caching
- Designed database schemas, indexing strategies, and optimized queries, reducing API response time by 40%
- Containerized applications using Docker and deployed to AWS (EC2, S3) and Vercel with CI/CD automation
- Worked in Agile teams for translating business requirements into scalable technical solutions across 10+ client projects

Aventra Systems

Nov 2023 – Jun 2024

Full-Stack Developer - Freelancing

- Developed WCAG-compliant Angular applications, improving mobile usability and accessibility by 40%
- Engineered Django and MySQL backend modules supporting workflow automation and centralized operations
- Built a scoring engine evaluating systems across 10+ operational and performance parameters
- Delivered HRMS modules streamlining attendance and employee workflows for 35+ active users
- Optimized frontend-backend integration and database interactions, increasing maintainability and operational efficiency

REVV Environmental Solutions Pvt. Ltd

May 2023 – Oct 2023

Full-Stack Developer - Freelancing

- Architected a scalable multi-tenant platform supporting 100+ client workflows using Angular and FastAPI
- Designed onboarding workflows reducing requirement gathering effort by 60%
- Streamlined operational processing pipelines, decreasing onboarding processing time by 90%
- Built reusable API-driven frontend components improving scalability and development efficiency
- Collaborated with 5+ stakeholders delivering 10+ feature releases aligned with operational requirements
- Improved platform performance through optimized backend services and PostgreSQL database design

Projects

Movies DB | *Angular, Node, Express, TypeScript*

- Engineered a web app to manage 50+ movie collections with persistent storage
- Integrated movie search handling 100+ API requests per session
- Developed full CRUD operations with < 200ms response time
- Enhanced UI flow increasing user interaction by 30%

Education

Gati Shakti Vishwavidyalaya

B.Tech - Electronics and Communication Engineering (CGPA: 8.02)

2020 – 2024

Certifications

Front-End Development, Version Control, Linux
